

# T-Handle Tools

Handle and blade are securely welded and will never loosen or slip.

## Color Coded

- Inch
- Metric
- Star

High Torque Steel:

- Up to 20% stronger, with more torque and twice the wear resistance of standard grades of steel.

Corrosion-resistant finish:

- Environmentally safe, provides better tool grip, resists solvents and is 5 times more corrosion resistant than competitor finishes.

Heavy duty handle generates a flywheel effect for super fast insertion or removal of screws.

Handle is shaped for comfort and control, and is ergonomically superior to older style straight handles.

Available in 6, 9", and graduated blade lengths

Cushioned feel reduces fatigue

Handle sizes are engineered to match blade torque capabilities:

The 5/32, 3/16", 4 and 5mm blades, in ball end sets, have smaller handles to prevent over-torqueing.

The 3/32, 7/64, 1/8, 9/64" and 2, 2.5 and 3mm blades are always straight hex tips to prevent breakage. A T-Handle could easily over-torque and break smaller size ball end tips.
